About Big Finance Holdings Ltd

We are a UK owned and controlled private investment firm with current funds under management of \$800m across multi funds. Our team has invested and managed four funds since 2016. We continually assess and refine our view on optimum fund positioning, size of fund and investment targets to reflect the current market dynamic and opportunity set – consequently we have established and run both the smallest and largest United kingdom based funds over the last 6 years

The team has experience investing in a diverse range of industries and in businesses of all sizes and stages. We also need to have a high level of confidence that the new investment will deliver a better risk-adjusted return for the Fund than we would be able to get from a passive, listed alternative. While we believe the Fund has a competitive advantage when investing domestically, in a global context, United Kingdom is a very small investment market. For our UK investments we therefore also require a return that will compensate us sufficiently for the risk of concentrating too much of the Fund's portfolio here. As one of only a few investors of scale in the country, we also maintain a high level of price discipline. We analyse global markets with discipline and focus, and employ a range of strategies in an effort to deliver market-leading investment returns to our capital partners. We empower the most talented minds in finance with an unparalleled combination of deep fundamental research, predictive analytics, and leading-edge technology to identify and capture new opportunities.

OUR INVESTMENT PORTFOLIO

EQUITES

This refers to companies who have their shares listed in public exchanges (Stocks). We always seek out overwhelming undervalued companies which have a huge potential of multiple returns. Investing into this means that you are buying an underlying asset of the companies in the GRC investment portfolio.

VALUATION PROCESS

This is how we know the best companies for our portfolio

- We study the company fiscal year report
- Our third party rating companies provides a favorable analysis
- We consider the global human impact of the business
- We exclude companies with negative incident or controversies

EXCHANGES

Foreign Exchange Market (FOREX) as its popularly know and Commodities (Gold, Oil, Silver) are categorized as exchanges. Because of their volatility and liquidity these securities are leveraged for all our investors. They are mostly short term gains and have certain investment limitations to protect all parties.

VALUATION PROCESS

This is how we know the best currencies for our portfolio

- We study the presiding trend
- Our professional traders analyze the market for patterns
- We take a short term position
- We avoid market traps by sticking our already proven strategy

REAL ESTATE

Real Estate is an important asset class in the our portfolio, as it is the building block for mid term and long term investments. With commercial properties being the best of them all, we analyze the global real estate market and invest appropriately where value is found

VALUATION PROCESS

This is how we know the best properties for our portfolio

- We study the global real estate market
- Our professional real estate agents spot undervalued area
- We leverage on our liquidity for best prices
- We consider ease of access and location reputation

PRIVATE SECTOR

This asset class represents our equity in companies who are not listed in public exchanges. They are investment gems capable of unlimited reward if value of is met.

VALUATION PROCESS

This is how we know the best companies for our portfolio

- We study the company fiscal year report
- Our third party rating companies provides a favorable analysis
- We consider the global human impact of the business
- We exclude companies with negative incident or controversies

OTHER

This does not signify our offered asset classes but it is instrumental to the structure of our fund management. Some of assets in this cannot be offered to investors on a third party contract, but they however generate a substantial profit.

FACTS

Here is a few facts we thought you might want to know about this category

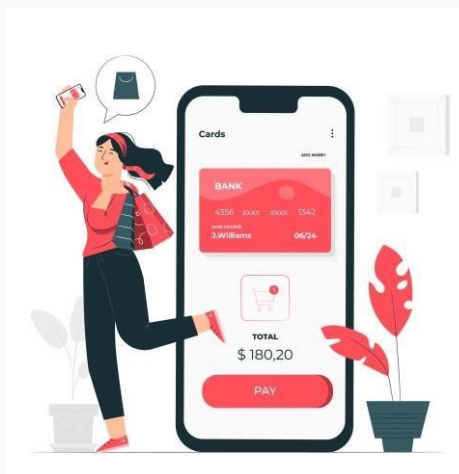

- Our cash reserve forms a major part of this
- Artifacts and artworks bought from auctions sales are classified under this.
- 30% profit generated from this assets are spent on philanthropy
- 20% profit generated from this assets form our referral program fund.
